Dear Sir,

With further reference to your letter No. 3121-3/CB137-21-1 dated the 7th December '21 and our reply dated 9th December '21, we now beg to quote Rs.2000/- nett as the price of a jewel of the Order of the Ganda-Bherunda II class, and Rs.760/- nett for a jewel of the Order of the III class. These prices compare very favourably with what we charged in 1916 and in previous years for the same jewels when they were priced at Rs.1800/- and 745/- respectively. Since then as you no doubt are aware, diamonds have risen in price and are constantly fluctuating with an upward tendency; and in addition there is ^{the import} duty of 11% to pay as against 5% in former years. Our estimates are for carefully selected gems of good quality; and in submitting these quotations we would like to say that if it is beyond what you are prepared to pay, they could be slightly reduced in price by using very fair quality stones. We however have always been most particular with reference to these orders to quote for and supply the very best we have, and in considering our estimate we hope you will bear this in mind.

P. T. O

If we should be favoured with your commands we could complete your order in about 3 weeks time.

Assuring you of our best services at all times,

Dear Sir,

We beg to refer you to our letter of the 28th December '21 submitting our estimates for Jewels of the Order of the Gundabherunda 2nd and 3rd class. We have been hoping that this order would be placed with us, but unless the matter has been deferred, we presume it has gone elsewhere. Our quotations compared favourably with what we charged the Government in 1916 and in previous years also for the same jewels, and we can hardly imagine that we have lost the order on the score of excessive prices if the quality of the gems we anticipated using and which would be similar to what we have hitherto employed for these jewels is taken into consideration.

It is some considerable time now since we were favoured with Government's orders for these jewels and we trust that we may again receive your commands for them; or if by any chance our quotations are higher than other firms, we would be interested to learn that this is actually so.

Assuring you of our best services at all times,
